

PERNOD RICARD & VILLA VASSILIEFF

Pernod Ricard Fellowship 2020

Pernod Ricard and Villa Vassilieff are delighted to announce the continuation of the Pernod Ricard Fellowship for the fifth consecutive year.

The Pernod Ricard Fellowship is conceived as a research and artistic platform, experimenting with non-linear models of generating and distributing knowledge to encourage different possible connections between researchers, contemporary artists, cultural institutions, non-profit organizations and the general public.

Inheriting the cosmopolitan and convivial spirit of the historical studio, art academy and artists' cantina founded and run by Marie Vassilieff in the heart of Montparnasse, the Fellows enjoy a tailor-made support, special meetings with local or international researchers and art professionals relevant to their needs, and access to a rich network of institutions in France and abroad such as Centre Pompidou (a long-term, privileged partner of Pernod Ricard and Bétonsalon – Center for Art and Research).

Fellows benefit from the research programs developed by Villa Vassilieff in collaboration with museums, private and public archives, universities and art schools, with a focus on rarely explored resources. The Pernod Ricard Fellowship ambitions to offer a sustainable support for artists, by involving local and international partners.

The Fellowship aims at questioning our relationship to history and heritage in contact with current cultural and social issues, offering various pathways for conducting new investigations and collecting multiple stories of our globalized world. The Villa Vassilieff's ongoing program of multiple events and encounters will facilitate the imagination of new modalities for dialogue, exchange, work and production.

Villa Vassilieff - Pernod Ricard Fellowship

Villa Vassilieff intends to reconnect with the history of its location by inviting artists and researchers to take a contemporary look at the heritage of Montparnasse. Our exhibitions and public programs focus on exploring lesser-known resources and aim at re-writing and diversifying historical art narratives. In addition, we embody a hub for dialogue addressing our current political situation. We aspire to generate an economy of conviviality, where visitors can spend time chatting around artworks and discussing personal experience and collective memories. We joined forces with our leading sponsor Pernod Ricard to create the Pernod Ricard Fellowship, a residency program inviting four international artists, curators, or researchers every year in the Pernod Ricard studio at Villa Vassilieff. The Pernod Ricard Fellowship allows for an extensive research period without any obligation for the creation of artworks.

Villa Vassilieff is run by Bétonsalon - Center for Art and Research, both are cultural institutions of the city of Paris, certified contemporary art centers of national interest by the French Ministry of Culture.

Bétonsalon - Center for Art and Research, offers a space of collective reflection that combines both artistic and academic practices and questions the production and dissemination of knowledge. The activities of Bétonsalon develop in a process-based, collaborative and discursive manner, following different time spans, in cooperation with various local, national and international organizations, and present themselves under different forms. Exhibitions are enriched by different associated events (workshops, conferences, performances, round table discussions...). Seminars and workshops are organized in collaboration with teachers from the University Paris 7. Off-site research projects are led in partnership with other institutions and residency programs are offered for researchers, artists and curators.
